Gainesville, FL

- Relevant coursework: Artificial Intelligence, Entrepreneurship, Innovation, Leadership, AI Tools in Business

ISAE-SUPAERO

2023 – 2027

Aerospace Engineering (Master's)

Toulouse, France

- Relevant coursework: Aerodynamics, Physics, Machine Learning, Statistics, Neuro-AI, Python, Entrepreneurship

EXPERIENCE

Walter Learning

Jan 2026 – Jul 2026

Chief of Staff Intern

Marseille, France

- Managed up to 220K monthly paid acquisition budget across Google Ads, Meta, and third-party lead generation platforms for a 20M/year EdTech company
- Reduced Cost per Acquisition by 13% and grew daily lead volume by 39% (180 → 250/day) by optimizing bidding strategies, audience targeting, and budget allocation across formation offers
- Increased landing page conversion rate by 23% by designing and running systematic A/B tests across copy, layout, and CTAs on high-traffic acquisition pages
- Led product development of an internal A/B testing tool alongside 3 engineers, cutting campaign analysis time by 93% (30 min → 2 min) and enabling faster data-driven decisions at scale

Flyte

Nov 2024 – Present

Founder & CEO

Toulouse, France

- Founded and scaled Flyte (beflyte.com), a community-driven carpooling platform, from zero to 2,000+ users within 6 months, facilitating 300+ rides and securing 15K in funding
- Designed and built full-stack mobile application using Flutter/Dart and Firebase, implementing real-time messaging, Stripe and Google Maps API, and optimizing app load times by 50% through caching and pre-loading
- Won PwC's startup competition and earned invitation to exhibit at VivaTech (Europe's largest tech conference)

SUPAERO Junior Consulting

Dec 2023 – Feb 2025

Business Development & Prospecting Manager

Toulouse, France

- Secured 24K in high-value contracts including 18K Airbus engagement, leading prospecting, pitch development, and negotiation from initial contact to signed agreement

PROJECTS

Harvey — AI Accountability Coach (withharvey.com) | *Next.js, TS, Supabase, Anthropic API* 2026 – Present

- Built a full-stack AI coaching web app that knows your goals, tracks your projects, and proactively tells you what to work on — designed to eliminate context-switching overhead for entrepreneurs juggling multiple projects
- Engineered a custom persistent memory system using the Anthropic API, giving Harvey coherent long-term knowledge of each user while keeping inference costs low through model routing and optimized context management
- Launched to a closed beta of 10 entrepreneurs, achieving 30% free-to-paid conversion with zero marketing

LEADERSHIP

SUPAERO Star'Venture

Feb 2024 – Feb 2025

Founder & President

Toulouse, France

- Founded entrepreneurship association from scratch, building a team of 20+ members and establishing mentorship programs that supported the launch of 7 student ventures within the first year

ENAC Aviation Hackathon

Feb 2025

Winner & Best Pitcher Award

Toulouse, France

- Won France's largest student aviation hackathon (100+ participants) with a sustainable aviation solution, earning Best Pitcher Award for business case presentation and technical feasibility analysis
